*The Pitch*

# AND THATS A FACT..!

Most returned online purchases by category in Finland as of September 2023

“..37% of the world’s GHG emissions are due to shipping and returning products...delivery vehicles on our roads increasing 36% by 2030, contributing to a 6 million ton increase in CO2 emissions..”

-Rebecca Noori [clevergirlfinance.com]

# THE MISSION

A web app that bridges the gap between online and physical shopping by connecting users with local stores nearby, helping them find in-stock clothing items quickly!

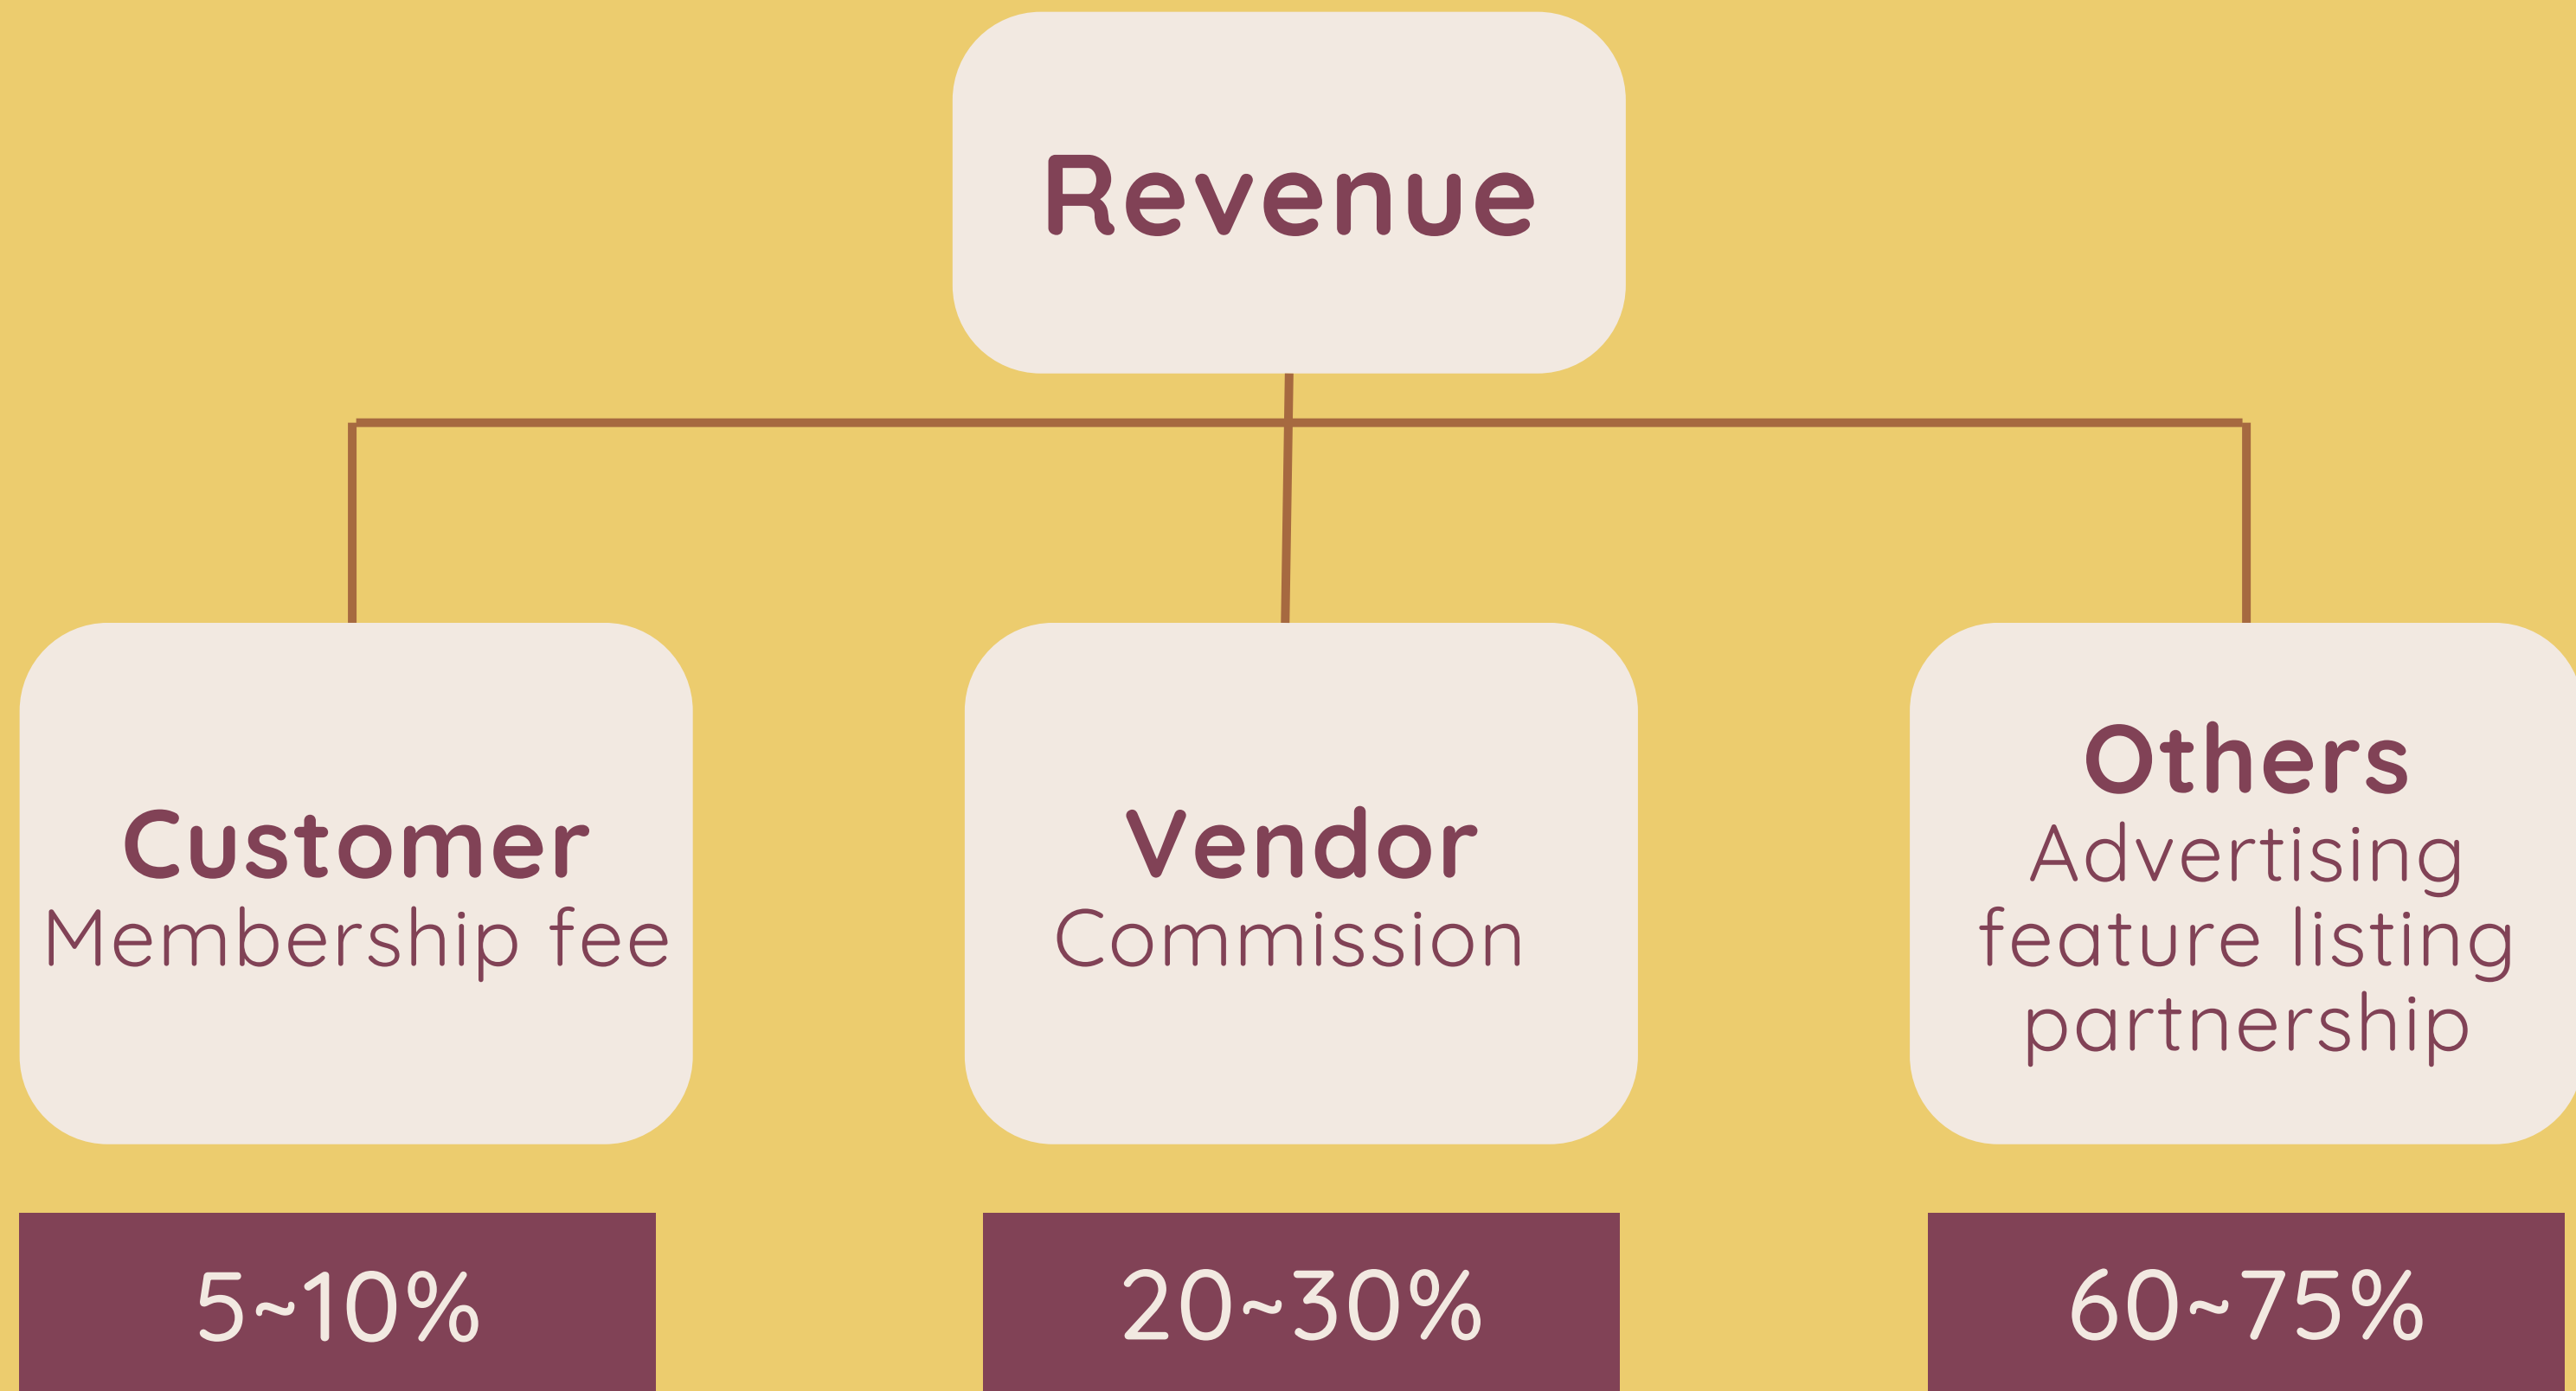

# VALUE FOR STORES

- Mitigate delivery issues, reducing cart abandonment.
- An additional effective channel to boost sales
- Alleviate inventory challenges
- Drive more traffic into physical stores
